

CEPA 21

2019

Characteristics of the harvest

The 2019 vegetative cycle was preceded by the April rains. However, from the middle of spring until the end of summer, the year was characterised by scarce rains and temperatures that were higher than expected. The harvest began after a few rainy days, which helped to balance the grapes' composition and resulted in a year of extraordinary quality and optimal health.

Winemaking process

Its alcoholic fermentation is carried out in stainless steel tanks at a controlled temperature for 18 days, followed by malolactic fermentation for 30 days. Aged in French oak barrels.

Tasting notes

This colour of this wine is a very deep, clean and bright cherry-red. Tempranillo aromas and red and black fruit are prominent in its intense but balanced bouquet. Barrel ageing that respects the raw material brings out attractive spiced notes. It shows great elegance and intensity on the palate, medium-body, and a long and persistent aftertaste.

Technical details

- Appellation:** Ribera del Duero
- Soil:** Limestone - Clay - Stony
- Location:** Castrillo de Duero
- Orientation:** North and South-east
- Malolactic Fermentation:** 30 days in vats
- Variety:** Tempranillo
- Ageing:** French oak barrels

Story

A wine with roots anchored in the most authentic winemaking tradition of Ribera del Duero but with an innovative vocation. Elaborated from grapes from an ideal location where exposure, climate and soil combine to obtain excellent grape quality.
